# FALL IS THE ONLY TIME

to set out the Dutch Bulbs which are offered on the Order Blank herewith, and the best time to plant Peonies and Irises.

---

and assure successful  
growth next spring!

FALL is the ideal time to plant nearly all varieties of trees and shrubs. Then plants are dormant, the soil workable and the ample fall rains pack the earth firmly about the roots so they are ready to respond to the first growing urge of spring.

To delay planting until next spring may mean the loss of a full season—plant this fall!

We will be glad to help you select exactly the right varieties to give the effect you desire. Call, phone or write—our advice is free.
